Woodwork Institute

Certified Seismic Installation Program (CSIP)
Blocking Inspection Work Sheet

Project Name: _____

Project Location: _____

Installation Firm: _____

Inspected and Verified by: _____ **Date:** _____

GENERAL NOTES: At wood or metal stud walls, prior to application of wall surfacing, casework Installer shall examine, approve and acknowledge blocking compliance to WI's OSHPD Pre-approval requirements, while providing documentation of such through an inspection report showing rooms/walls inspected type of blocking (wood or metal), confirmation of compliance or statement of noncompliance, inspectors name, date, and signature, with: Photo documentation (referenced by room/wall) of at least 25% of the walls inspected, and inspection report shall identify which walls include photo documentation. Contact WI and arrange for final inspection of the casework installation by a WI Director of Architectural Services (DAS), and if Installation is found compliant, the DAS will authorize issuance of the CSIP Certificate.

INSTRUCTIONS: For each room and corresponding wall, check the appropriate boxes to indicate whether any required casework installation blocking is or is not furnished and installed correctly or not applicable. The check box for "Picture Taken" is to indicate at which rooms and wall elevation pictures were taken not the quantity taken. Please use multiples of the second page as needed and try not to mix buildings and or floors as may be applicable on a single page. Indications of non-compliant blocking should briefly comment why the noncompliance.
